

Highways Authority Consultation Response

Consultee response · dated 2026-06-03

- 1.** No objection subject to conditions. The reduced parking provision (38 spaces for 132 units, 0.29 per unit) is acceptable given the site's PTAL of 4 and the car club bay offered.
- 2.** Requests: Hunslet Road junction improvement (estimated £180,000 via S278), servicing management plan, a Travel Plan monitoring fee of £6,000, and a Stage 1 Road Safety Audit before commencement of highway works.
- 3.** The applicant's transport assessment shows 41 two-way vehicle trips in the AM peak, which the Authority considers acceptable.
